#### Notice of General Meeting

#### 1. Introduction

As most shareholders will be aware, towards the end of last year your Company was extremely short of funds. The principal reason for this was the failure to bring our Slovenian gas project at Petišovci on stream as originally planned. On 24 December 2012, to allow the Company to continue to trade and to provide shareholders with the best chance of maximising their investments, your Board was pleased to conclude a fundraising with Henderson by way of the subscription by Henderson of Convertible Loan Notes of up to £5.5 million.

The terms negotiated with Henderson were, in the opinion of the Directors, the best possible in the circumstances and reflect the commercial reality of the Company's position and prevailing market conditions. Under the rules of the Takeover Panel, the Company has an obligation to seek a Whitewash, so allowing Henderson to convert the Convertible Loan Notes into Ordinary Shares and potentially own 30 per cent. or more of the Company.

Your Board has also agreed with Henderson that £2.5 million of the £5.5 million rescue funding will be made available for Shareholders to purchase Convertible Loan Notes on the same terms as Henderson, by way of an Open Offer. As an alternative, Shareholders have the option to purchase Offer Shares at a price of 0.5 pence per Offer Share.

The purpose of this document is, amongst other things, to provide you with details of the Fundraising, to explain the background to the Company's current position, provide details of the incentive arrangements put in place, and to explain why the Board considers that the Fundraising is for the benefit of Shareholders as a whole and how the Board intends to develop value for Shareholders.

The terms of the Open Offer, and the steps required for qualifying Shareholders to participate, are set out in the accompanying letter from finnCap.

#### 2. Background

The Company failed to make the expected progress in obtaining the required third party consents at our Petišovci project in 2012. Concerns over on-going leadership problems, progress with the asset portfolio and funding led the Board to appoint Leonard Reece as Chief Executive Officer in September 2012 with a mandate to focus on bringing the Petišovci asset into production.

In October 2012, First Energy Capital LLP was appointed to evaluate all options open to the Group. In December 2012, shortly before the dismissal of the former Managing Director, the Group entered a formal strategic review. This process remains on-going, but did not affect the need for the Fundraising. Whilst we are hopeful, based on early interest, that it will produce asset divestment options to rebalance the portfolio, or even possibly produce a merger partner for the Group as a whole, there can be no certainty that any transactions or offers will be consummated or forthcoming.

The Board, having been so advised by FirstEnergy Capital LLP, does not believe that the Proposals or the Waiver will result in any offer or *bona fide* possible offer being frustrated or in Shareholders being denied the opportunity to decide on its merits.

#### 3. Funding

The Directors believe the £5.5 million fundraising gives the Group sufficient capital to continue trading through to the fourth quarter of 2013 and allows the Company the best opportunity to make significant progress at the Petišovci asset. However, further funding will be required for the next phase of development, to get the Group to a point where revenues from the Petišovci asset commence.

Additionally, the BNPP Facility cannot be drawn until BNPP has waived the defaults on the BNPP Facility and the Company has obtained the JV Consent and various other required contracts. In the event that these waivers, the JV Consent and other required contracts have not been obtained by 29 May 2013, the BNPP Facility shall automatically cancel and cease to be available.

Your Board is therefore considering the benefits of introducing a further investor sooner rather than later and has held discussions with a variety of financial and industry partners to this end. Although we cannot be certain that further funding will be available from a new investor, subject to the receipt of the required consents, the Board is confident in the value in the underlying assets and the ability to raise further funds.

#### 4. Current Trading and Prospects

The year to 31 December 2012 proved to be very disappointing for the Company. The finalisation of a €15m credit facility with BNPP to fund development of the Petišovci asset was, in the opinion of the Board, a glowing endorsement of that project. However, the Company was unable to progress the Petišovci project in the second half of the year, as a result of failure to receive the JV Consent. Additionally, due to lack of adequate financial resources and efforts to focus remaining funds on our key project in Slovenia, no significant progress was made across the rest of the Company's portfolio of assets.

The jewel in our crown remains the Petišovci asset in Slovenia. We believe that under the new leadership we should be in a better position to unlock the current impasse during the course of 2013 to allow the belated commencement of production in 2014. Development of this project is the focus of the Board and it is critical for developing value for Shareholders in 2013 and beyond.

#### 5. Strategy

Your Board firmly believes that the gas field at Petišovci is its outstanding prospect and therefore intends to focus the Company's resources on this project. Our Hungarian asset continues to produce positive but declining cashflow which is expected to cease within the next 6 to 9 months. We also believe that now is an appropriate time to seek new partners for, or to divest, our assets in Italy, Hungary and the Netherlands. Discussions are underway with several potential purchasers for our non-Slovenian assets. While the aggregate consideration is unlikely to be material in the context of the funding required for our Slovenian asset, disposals will reduce the amount we will have to spend on these non-core assets.

Our strategy is to focus the bulk of our available funding on bringing Petišovci into production. In the event we are unsuccessful in completing these disposals, we will seek to preserve the value of our other assets either through third party funding, or by making modest financial commitments to extend their lives, where such action is deemed appropriate.

#### 6. Changes to the Board

I will leave the Board at the General Meeting.

It is also with regret that I report that Scott Richardson Brown and Graham Cooper have decided to retire from the Board at the conclusion of the General Meeting; Scott to pursue other business interests and opportunities and Graham following the dilution of EnQuest's interest and greater demand on his time elsewhere. We all want to thank them both for their time, effort and wisdom. Scott has performed an excellent job as Finance Director under very difficult circumstances, raising significant money for the Company, and also securing the important BNPP Facility. Graham has provided excellent support and advice, on an unremunerated basis, for the past two years.

Following the General Meeting, Clive Carver, who was nominated by Henderson under the Subscription Agreement, will become Chairman. Clive is an experienced Chairman of AIM Energy and Petroleum companies and has recent hands on experience of turnaround situations in the sector. I am pleased to welcome him to the Board. He will work closely with Leonard Reece in attempting to bring the Petišovci project into production.

The Board is also seeking to appoint a new non-executive director, a condition of the funding by Henderson. In due course the management team will be strengthened to ensure the correct financial and technical skills are available to develop the Petišovci project.

Nigel Moore and Dr.Cameron Davies will remain on the board as independent non-executive directors.

This team will take the lead in implementing the new strategy as described above. With the support of Henderson and a potential new financial or strategic partner, I am confident that the new management team will be able to develop the Petišovci project to its full potential.

#### 7. Management Incentives

#### 7.1 Incentive Loan Notes

Leonard Reece and Clive Carver, as demonstration of their commitment to Ascent, have agreed to purchase 81,144 Incentive Loan Notes.

In the case of Leonard Reece this will be funded by an upfront retention payment from Ascent of  $\pounds$ 63,644, which will be used to buy the 63,644 Incentive Loan Notes. These will be purchased as soon as practically possible after the retention payment is made. Leonard Reece's base post tax salary will for a period of up to two years be reduced by the corresponding amount. He will also earn the coupon on the Incentive Loan Notes. In the event that Leonard Reece does not stay for the full three year qualifying period or until an event of exit the number of Incentive Loan Notes he would retain would be the number *pro rata* to the percentage of salary then sacrificed, with any unvested Incentive Loan Notes reverting to the Company. Clive Carver will acquire 17,500 Incentive Loan Notes funded by his own resources.

#### 7.2 The Ascent Resources 2013 Long Term Incentive Plan ("the Incentive Scheme")

The Board believes that the success of the Company will depend to a high degree on the new management team and other staff being appropriately motivated and rewarded.

The Company has set up an option style scheme to incentivise and reward the key contributors to Ascent's future success. The total value of the underlying shares to be issued under these arrangements has been set at 10 per cent. of the total fully diluted shares in issue, assuming full conversion of the Loan Notes.

The initial awards under the Incentive Scheme have been capped at 5 per cent. in part in recognition that as the Company progresses new staff will be required who would also expect to participate in the incentive arrangements.

The strike price for the Scheme Shares to be awarded on the closing of the General Meeting has been fixed at 1 penny per Scheme Share. Of the current Board Leonard Reece will be awarded 69,079,066 Scheme Shares and Clive Carver will be awarded 26,568,871 Scheme Shares, representing 3.25 and 1.25 per cent. respectively of the fully diluted issued share capital. Other awards will be made to staff but no other current Directors will participate in these incentive arrangements.

The Scheme Shares will vest at the earlier of three years from the date of the General Meeting or upon an event of exit, which is broadly defined as a change of control or the sale of the Company's Slovenian assets for more than £40 million.

In the event that a participant in the incentive arrangements leaves before vesting the value of the Scheme Shares they would be entitled to will depend on whether they were deemed under the rules of the scheme as a Good Leaver, an Intermediate Leaver, or a Bad Leaver.

For a Good Leaver, all the Scheme Shares would fully vest but the share price used to calculate the reward would be that at the end of three years or on an event of exit. In this way a Good Leaver would be rewarded in the same manner as shareholders generally.

For an Intermediate Leaver the number of shares to be received would time pro rata but the value of those Scheme Shares would be capped by reference to the price on the date they left.

For a Bad Leaver, all Scheme Shares will lapse on cessation of employment.

For the avoidance of doubt, the entitlements of a director under the Management Incentive Scheme will not be affected if a director retires by rotation or fails to be re-elected as a director.

Further details of the incentive arrangements are set out in paragraph 8.11 and 8.12 of Part VII.

finnCap has confirmed that it considers both the purchase of Incentive Loan Notes by Leonard Reece and Clive Carver and the terms thereof, and the grant of options to Leonard Reece and Clive Carver under the Incentive Scheme are fair and reasonable in so far as Independent Shareholders are concerned.

#### 8. Independence

With the exception of Clive Carver, who was appointed a non-executive director of the Company on 24 December 2012 at the instigation of Henderson under the terms of the Subscription Agreement, all of the Directors of the Company are deemed to be independent for the purposes of making a recommendation on the terms of the Subscription. Furthermore, Henderson, as the party subject to the Whitewash, will not vote on the Whitewash Resolution at the General Meeting.

#### 9. Irrevocable undertakings

The Company has received irrevocable undertakings to vote in favour of the Resolutions from Directors holding in aggregate 1,169,500 Ordinary Shares representing approximately 0.11 per cent. of the existing issued share capital of the company. In addition, the Company has received an irrevocable undertaking to vote in favour of Resolutions 1 and 3 from Henderson who have a beneficial interest in respect of 151,601,970 Ordinary Shares representing of 14.78 per cent. of the existing share capital of the Company.

#### 10. Recommendation

#### Subscription

The Independent Directors believe that the funding offered by Henderson provided it with the greatest opportunity to generate shareholder value, particularly from the Petišovci Project in Slovenia, which has been stalled as described above.

Accordingly, the Company entered into the Subscription Agreement as described in greater detail elsewhere in this document and has drawn down the first £3 million already to enable the Company to continue to trade. Under the rules of the Takeover Panel the Company is required to obtain Shareholder approval for the terms of the funding by Henderson.

The Independent Directors, having been so advised by finnCap, believe the Proposals and the Waiver are fair and reasonable and in the best interests of Independent Shareholders generally. In providing advice to the Independent Directors, finnCap has taken into account the Independent Directors' commercial assessments. Accordingly, Independent Directors recommend that Independent Shareholders vote in favour of the Resolutions to approve the Proposals and the Waiver.

Shareholders are advised that in the event that the Fundraising Resolutions are not passed at the by 31 May 2013 ("the Long Stop Date") and the Long Stop Date is not extended by Henderson, the Convertible Loan Notes that are not capable of conversion into Ordinary Shares pursuant to the Company's current authorities shall be treated as Phantom Shares and a finance fee equal to any value attributable to those shares (after deducting the face value of any Convertible Loan Notes redeemed for cash) shall be paid to Henderson by the Company on the 31 January 2015 or such earlier redemption date in accordance with the terms of the Convertible Loan Note Instrument. In the absence of any other financing arrangements, your Company does presently not have the funds to make such a payment and the likelihood, should Henderson make such a request, is that the Company would be unlikely to be able to continue to trade and in such circumstances your Board would be obliged to place the Company into administration without delay and that it would be probable that all Shareholders' investment to date would be lost under such circumstances. Accordingly, Independent Shareholders are urged to vote in favour of the Resolutions to be put to the General Meeting convened for 30 April 2013 to approve the Proposals and the Waiver. The Board intend to vote in favour of the Resolutions in respect of their aggregate shareholdings of 1,169,500 Ordinary Shares representing approximately 0.11 per cent. of the Company's existing issued Ordinary Shares.

#### Participation in the Open Offer

In deciding whether to participate in the Open Offer Shareholders, should be aware that while the rewards could be significant in the event the Petišovci project is brought on stream as your Board hopes, there can be no guarantee that either the required partner consents will be obtained and associated contracts will be signed, or that the said formalities will be resolved before additional, more dilutive funding is required. Shareholder's attention is drawn to the Risk Factors contained in Part III of this document.

Accordingly, Shareholders electing to take up Offer Shares or Offer Loan Notes pursuant to the Open Offer are advised that while they may benefit therefrom they may also lose all their investment.

Yours faithfully,

John Kenny Chairman

## PART II

## LETTER FROM FINNCAP LIMITED

60 New Broad Street London EC2M 1JJ

12 April 2013

To Shareholders and, for information purposes only, to the holders of Options Dear Shareholder,

Open Offer of up to 500,000,000 Ordinary Shares at 0.5 pence per share or 2,500,000 Convertible Loan Notes at 100 pence per Convertible Loan Note on the basis of 1 Offer Share for every 2.05 Existing Ordinary Shares or 1 Convertible Loan Note for every 410 Existing Ordinary Shares, Issue of the Incentive Loan Notes, Introduction of Incentive Scheme, Approval of the Waiver by the Takeover Panel

And

#### Notice of General Meeting

#### 1. Introduction

Your Board announced on 24 December 2012 that it had entered into an agreement with Henderson for the subscription by Henderson of Convertible Loan Notes of up to £5.5 million in principal amount. The Convertible Loan Notes will be convertible at any time, when pursuant to the terms upon which they are issued they are capable of conversion, prior to repayment or subject to automatic conversion into ordinary shares of 0.1 pence each in the share capital of the Company at the holder's option, at a conversion price, fixed at 0.5 pence. Each Convertible Loan Note of £1 will therefore be convertible into 200 Ordinary Shares. The Convertible Loan will be drawn in two tranches. The first tranche of £3 million Convertible Loan was drawn on 28 December 2012 and the second tranche of £2.5 million will be subscribed for by Henderson subject to clawback from investors in the Open Offer, and subject to the terms and conditions of the Subscription Agreement. The Company's existing Shareholders are therefore being provided with the opportunity to subscribe for Offer Shares or Offer Loan Notes at the same price and on the same commercial terms as Henderson.

The purpose of this document is, amongst other things, to provide you with details of the Fundraising, to explain the background to and the reasons for these proposals and to explain why the Board considers that the Fundraising will provide an opportunity to promote the success of the Company for the benefit of its members as a whole.

The terms of the Fundraising are described in this document. The net proceeds of the Fundraising are expected to be approximately £5.15 million and will provide the Group with capital to manage the business in 2013 and progress the Group's business interests, largely focused on the project in Slovenia.

The Open Offer is conditional, *inter alia*, upon Admission and also upon the passing by Shareholders of the Fundraising Resolutions at the General Meeting which will give the Directors the necessary authorities to allot and issue equity securities and to dis-apply statutory pre-emption rights in respect of the allotment of the Offer Shares and Convertible Loan Notes in connection with this fundraising.

Furthermore, if the Convertible Loan Notes were to be fully converted by Henderson, Henderson would hold approximately 58.9 per cent. Of the total voting rights of the Company, which, without a

waiver of the obligations under Rule 9 of the Takeover Code, would oblige Henderson to make a general offer to Shareholders under Rule 9 of the Takeover Code. The Takeover Panel has agreed, however, to waive this obligation subject to Independent Shareholder consent.

#### 2. Funding

A key cash requirement of Ascent is the repayment of the Yorkville loan of £2.3 million. The Yorkville Loan bears interest at a rate of 9% per annum and at 31 December 2012 approximately £1.9 million of this loan was outstanding, in addition to approximately £0.9 million of debt that is payable through to 1 July 2015 to Cento Bank in the Company's Italian subsidiary.

In 2013, the Company has to continue making interest payments and loan repayments to Yorkville and Cento bank of approximately £1.9 million and approximately £0.42 million respectively as well as meeting its monthly overheads and to fund its modest 2013 capital expenditure programme. Monthly revenues from the sale of hydrocarbons are declining, as expected, as the Peneszlek field nears the end of its life over the next 12 months and hence the Company does not currently have the capital resources to make its loan repayments and also meet its other obligations. The Company has therefore sought other sources of financing, including additional loans from major shareholders and other third parties.

Having reviewed a number of different funding options, the Directors concluded that the Henderson rescue funding provided it with the greatest opportunity to generate shareholder value in the next twelve months, particularly from the Petišovci asset in Slovenia, which has been stalled awaiting various consents as described above.

Ascent has therefore agreed terms, pursuant to the Subscription Agreement, for the subscription by Henderson of Convertible Loan Notes of up to £5.5 million in principal amount. The Convertible Loan will be drawn in two tranches. The first tranche of £3 million Convertible Loan was drawn on 28 December 2012 and the second tranche of £2.5 million will be subscribed by Henderson subject to clawback from investors in the Open Offer, and subject to the terms and conditions of the Subscription Agreement, described in more detail elsewhere in this document.

The £5.5 million rescue funding on its own is not expected to be sufficient to fund the Group until revenues from the Petišovci asset come on stream, even if the required consents are received in the next few months.

Additionally, the BNPP Facility cannot be drawn until BNPP has waived the defaults on the BNPP Facility and the Company has obtained the JV Consent and various other required contracts. In the event that these waivers, the JV Consent and other required contracts have not been obtained by 29 May 2013, the BNPP Facility shall automatically cancel and cease to be available.

#### 3. Open Offer

The second tranche of the Convertible Loan Notes of up to £2.5 million will be subscribed for by Henderson subject to clawback by Shareholders under the Open Offer. The Open Offer will be made to Qualifying Shareholders on the register on the Record Date. The Open Offer will provide Shareholders with the option to subscribe for Convertible Loan Notes at a price of 100 pence per Convertible Loan Note, or for new Ordinary Shares at a price of 0.5 pence per Ordinary Share. Qualifying Shareholders' entitlements to apply in the Open Offer will be pro-rata to their holdings of Ordinary Shares in the Company at the Record Date.

Henderson has agreed to underwrite the Open Offer by undertaking in the Subscription Agreement that, in the event the proceeds of the Open Offer fall short of £2.5 million, it will subscribe for further Convertible Loan Notes equal to such shortfall.

Any participation in the Open Offer by Shareholders will reduce Henderson's underwriting commitment. The Company will pay Henderson an underwriting fee of 2% of the aggregate amount of the Open Offer.

Qualifying Shareholders are invited to apply for Offer Shares under the Open Offer at a price of 0.5p per Offer Share or for Offer Loan Notes at a price of 100 pence per Convertible Loan Note, payable in full on application and free of all expenses, *pro rata* to their existing shareholdings on the basis of:

#### 1 Offer Share for every 2.05 Existing Ordinary Shares

Or

#### 1 Offer Loan Note for every 410 Existing Ordinary Shares

held at the Record Date and so in proportion for any other number of Existing Ordinary Shares then held. Entitlements of Qualifying Shareholders will be rounded down to the nearest whole number of Offer Shares or Offer Loan Notes. Fractional entitlements which would have otherwise arisen will not be issued.

The Open Offer is subject to the satisfaction, amongst other matters, of the following conditions on or before 2 May 2013, (or such later date being not later than 31 May 2013, as the Company may decide):

- passing of the Fundraising Resolutions; and
- to the extent that Offer Shares are to be issued pursuant to the Open Offer, Admission becoming effective by 8.00 a.m. on 2 May 2013 (or such later time or date not being later than 8.00 a.m. on 31 May 2013 as the Company may decide).

The Offer Shares will, when issued and fully paid, rank *pari passu* in all respects with the Existing Ordinary Shares, including the right to receive all dividends and other distributions declared, made or paid after the date of Admission.

#### Settlement and dealings

Application will be made to the London Stock Exchange for the New Ordinary Shares to be admitted to trading on AIM. It is expected that such Admission will become effective and that dealings will commence on 2 May 2013. Further information in respect of settlement and dealings in the New Ordinary Shares is set out in paragraph 7 of Part IV of this document.

Offer Loan Notes will be credited to CREST accounts on 2 May 2013. It is not currently expected that the Offer Loan Notes will be listed on any stock exchange or other market.

#### **Overseas Shareholders**

Certain Overseas Shareholders may not be permitted to subscribe for Offer Shares pursuant to the Open Offer and should refer to paragraph 6 of Part IV of this document.

#### 4. Terms of the Subscription Agreement

Henderson also have the right, whilst the Convertible Loan Notes are outstanding, to nominate for appointment two non-executive Directors to the Board of Ascent, one of whom shall be the Chairman. To that end, Clive Carver has been appointed to the Board as a non-executive Director and will become Chairman at the conclusion of the General Meeting and a further non-executive Director may be appointed in the future.

The Subscription Agreement also contains certain negative pledges, providing Henderson with certain rights of consent in relation to certain matters concerning the Company and its business, including in relation to acquisitions or disposals, the conduct of the business of the Group and incoming indebtedness.

The Subscription Agreement is summarised in paragraph 8.1 in Part VII of this document.

#### 5. Use of Proceeds

The first tranche of £3 million of the Convertible Loan Notes was drawn down on 28 December 2012 and has been used to make interest payments and a partial repayment under the Yorkville Loan Facility Agreement, make interest payments and capital repayments to Cento bank, meet certain capital expenditure requirements and to provide Ascent with on-going working capital.

It is expected that the second tranche of £2.5 million will, when received, be used to make interest payments and a final repayment under the Yorkville Loan Facility Agreement, to meet certain

capital requirements and to provide Ascent with on-going working capital for much of the rest of 2013.

It is currently anticipated that the net proceeds from the issue of the Convertible Loan Notes to Henderson and from the Open Offer, alongside forecast net revenues from hydrocarbon sales, will provide the Company with sufficient working capital to meet its current expected capital requirements through to the fourth quarter of 2013 and therefore provide more time for the Company to focus its efforts on unlocking the potential for the Petišovci asset to generate significant cashflow.

#### 6. Darwin SEDA

Pursuant to the terms of the Subscription Agreement, the Company has agreed, subject to the repayment of the Yorkville Loan Facility and the termination of the existing Yorkville SEDA, to enter into a standby equity distribution facility with Darwin. The Darwin SEDA will be substantially identical in terms to, and in any event on terms no less favourable to the Company than, the Yorkville SEDA. Further information relating to the Yorkville Loan Facility, the Yorkville SEDA and the Darwin SEDA is set out in Part VII of this document.

#### 7. Directors' Share Purchases

In the announcement of 24 December 2012, it was noted that it is was a term of the Subscription Agreement that Leonard Reece, CEO, and Scott Richardson Brown, Finance Director, will enter into a binding commitment to invest by way of convertible loan notes on the same terms as the Convertible Loan Notes the equivalent of 50% and 25% respectively of one year's annual post tax salary over a 24 month period, to be invested on a monthly basis commencing on 31 January 2013.

Since then Scott Richardson Brown decided to leave the Company to pursue other interests and step down from the Board at the conclusion of the General Meeting. Accordingly, all parties to the Subscription Agreement have agreed to waive this requirement. Details of the arrangements covering Leonard Reece and Clive Carver are set out in the Chairman's Letter and in paragraph 7 of Part Part I.

#### 8. Rule 9 Whitewash

The Code governs, *inter alia*, transactions which may result in a change of control of a public company to which the Code applies (a "Code Company"). Ascent is a Code Company. Under Rule 9 of the Code any person who acquires, whether by a series of transactions over a period of time or not, an interest (as defined in the Code) in shares which, taken together with shares in which he is already interested or in which persons acting in concert with him are interested, carry 30 per cent. or more of the voting rights of a Code Company, that person is normally required to make a general offer to all the remaining shareholders to acquire their shares.

Similarly, Rule 9 of the Code also provides that when any person, together with persons acting in concert with him, is interested in shares which, in aggregate, carry more than 30 per cent. of the voting rights of such company, but does not hold shares carrying 50 per cent. or more of such voting rights, a general offer will normally be required if any further interest in shares is acquired by any such person.

Rule 9 of the Code further provides, among other things, that where any person who, together with persons acting in concert with him holds over 50 per cent. of the voting rights of a Code Company, then they will not generally be required to make a general offer to the other shareholders to acquire the balance of their shares.

An offer under Rule 9 must be in cash and must be at the highest price paid by the person required to make the offer, or any person acting in concert with him, for any interest in shares of the Code Company in question during the 12 months prior to the announcement of the offer.

# Potential interests in Ordinary Shares of Henderson following any conversion of Convertible Loan Notes

On the assumption that (a) the full underwriting participation is taken up, (b) the Convertible Loan Notes held by Henderson are fully converted, (c) no disposals of Ordinary Shares are made by Henderson and (d) no issues of Ordinary Shares are made by the Company in the meantime, the interests in Ordinary Shares of Henderson and the percentage of the voting rights in the Company

attributable to such interests (assuming no other party converts options or warrants) would be approximately 1.25 billion Ordinary Shares, representing 58.9 per cent. of the total voting rights of the Company. At that time, without a waiver of the obligations under Rule 9 of the Takeover Code, Henderson would be obliged to make a general offer to Shareholders under Rule 9 of the Takeover Code. The Panel has agreed, however, to waive the obligation to make a general offer that would otherwise arise on Henderson as a result of the conversion of any Convertible Loan Notes taking their holding to more than 30.0% of Ordinary Shares subject to approval on a poll by the Independent Shareholders of Resolution 2 as set out in the Notice.

The Waiver described in Resolution 2, which is conditional upon the passing of Resolution 1, applies only in respect of increases in the percentage interest of Henderson resulting from any conversion of Convertible Loan Notes and not in respect of other increases in Henderson's interests in Ordinary Shares. Henderson has agreed not to vote on Resolution 2 (the Resolution to approve the Whitewash).

Unless the Whitewash has been approved by Independent Shareholders or unless Henderson makes a takeover offer as required by the Takeover Code, Henderson will not be able to convert any Convertible Loan Notes to the extent that as a result of such conversion, Henderson would hold more 30% or more of the total voting rights of the Company.

If the appropriate shareholder approvals are not received by 31 May 2013, the Convertible Loan Notes and interest thereon will become repayable at any time thereafter at the election of Henderson. In such circumstances, on redemption a further sum will be payable as compensation for the loss of the conversion right calculated as the value (if any), determined in accordance with the provisions of the Convertible Loan Note instrument, attributable to the Ordinary Shares into which the Convertible Loan Notes would have converted had conversion taken place. The Convertible Loan Notes will be repayable immediately if the Company enters into any formal winding up or insolvency process, stops or suspends payment of all or a material part of its indebtedness, or seeks to reschedule all or a material part of its indebtedness. As Shareholders should be aware that if the Fundraising Resolutions are passed and Henderson converts all of the convertible Loan Notes, Henderson may have a direct interest in more than 50 per cent. of the voting rights of the Company, and will be able to increase their aggregate interest in the Company without incurring any obligation under Rule 9 of the City Code to make a general offer to all Shareholders to acquire their shares in the Company.

#### The intentions of Henderson

Henderson have confirmed to the Company that they are not proposing, following any increase in their percentage interest in Ordinary Shares or voting rights as a result of any conversion of Convertible Loan Notes to seek any change in the composition of the Board or the general nature of the Company's business.

#### 9. Further information

Your attention is drawn to the additional information set out in Part VII of this document.

#### 10. General Meeting

Set out at the end of this document is a notice convening a General Meeting of the Company to be held at 9.30 a.m. on 30 April 2013 at the offices of finnCap Ltd, 60 New Broad Street, London, EC2M 1JJ, at which the Resolutions will be proposed.

The Company is proposing that Shareholders pass the Resolutions in order to:

- (b) empower the Directors, pursuant to section 570 of the Act, to dis-apply the statutory preemption rights in relation to the allotment of equity securities required in order to complete the Fundraising ;
- (c) approve the waiver granted by the UK Panel on Takeovers and Mergers of Henderson's obligation to make a general offer to the Shareholders for the entire issued and to be issued share capital of the Company pursuant to Rule 9 of the Takeover Code as a result of the allotment and issue of, equity securities to Henderson pursuant to the terms of the Subscription (this resolution requires voting on a poll by Independent Shareholders);

- (d) grant authority to the Directors under section 551 of the Act, to allot relevant securities up to a maximum aggregate nominal amount of £550,000 (for general purposes, to expire at the conclusion of the Annual General Meeting to be held in 2013); and
- (e) empower the Directors, pursuant to section 570 of the Act, to disapply the statutory preemption rights in relation to the allotment of equity securities up to a maximum aggregate nominal amount of £250,000 (for general purposes, to expire at the conclusion of the Annual General Meeting to be held in 2013).

The above authorities and powers will be a substitution for to those granted at the 2012 Annual General Meeting, will enable the Directors to complete the Fundraising and will expire at the conclusion of the next Annual General Meeting of the Company in 2013.

#### PART III

#### **RISK FACTORS**

An investment in the Offer Shares or Offer Loan Notes involves a very high degree of risk. Accordingly, prospective investors should carefully consider the specific risk factors set out below in addition to the other information contained in this document before investing in the Offer Shares or Offer Loan Notes. The Directors consider the following risks and other factors to be the most significant for potential investors in the Company, but the risks listed do not purport to comprise all those risks associated with an investment in the Company and are not set out in any particular order of priority. Additional risks and uncertainties not currently known to the Directors may also have an adverse effect on the Company's business.

If any of the following risks actually occur, the Company's business, financial condition, capital resources, results or future operations could be materially adversely affected. In this event, the market price of the Ordinary Shares and/or Convertible Loan Notes could decline and investors may lose all or part of their investment. The investment offered in this document may not be suitable for all of its recipients. Before making an investment decision, prospective investors should consult a person authorised under the Financial Services and Markets Act 2000 who specialises in advising on the acquisition of shares and other securities. A prospective investor should consider carefully whether an investment in the Company is suitable for him/her in the light of his/her personal circumstances and the financial resources available to him/her.

There are various risks and other factors associated with an investment of the type described in this document. In particular:

#### 1. Risks relating to the Group's businesses

#### (a) Regulatory Risks

The Group operates in regulated markets across all of its operations. Should the Group fail to secure the timely consent of regulators it may not be able to make progress at its projects as it would wish.

#### (b) The Group operates in competitive markets

The Group's ability to obtain or maintain any competitive advantage will require continued investment in the development of the Group's infrastructure and facilities. There can be no assurance that the Group will have sufficient resources to continue to make these investments nor that the Group's competitors do not devote significantly more resources than Group to the development of infrastructure and facilities.

#### (c) Reliance on partners

The Group's is heavily reliant on joint venture partners for the progression of major assets. If there is a continued act of non-co-operation from a joint venture partner it can significantly affect the progress the Group can make over a period of time and can cost the Group considerable funds. The Group is currently awaiting a key signature from a joint venture partner on the Petišovci Project.

#### (d) Threat of new entrants

The Group's operations may be materially affected by the entrance of new competitors into the markets in which it operates who may offer cheaper and/or better products or services.

#### (e) BNPP Facility

There can be no certainty that the BNPP Facility, which will automatically be cancelled on 29 May 2013, will ever be in a position to be drawn given the on-going delay in obtaining JV Consent and the requirement for BNPP to waive the existing events of default.

The Company is in default under the terms of the BNPP Facility as the Petišovci asset has not been put into production by 31 March 2013. This default has not been waived and BNPP is therefore entitled to immediately cancel the BNPP Facility at any time by serving notice on the Company.

The Company is also in default under the terms of the BNPP Facility as Jeremy Eng ceased to be the Managing Director of the Company prior to the Commercial Operation Date (as defined in the BNPP Facility). This default has not been waived and BNPP is therefore entitled to immediately cancel the BNPP Facility at any time by serving notice on the Company.

On cancellation of the BNPP Facility, all amounts owing thereunder shall be immediately due and payable by the Company.

The BNPP Facility contains a mandatory prepayment event following a change of control. The issuing of shares to Henderson pursuant to the Convertible Loan Notes may constitute a change of control as defined in the BNPP Facility and require the repayment of the BNPP Facility.

#### 2. Risks specific to the industries in which the Group operates

# (a) The Group's performance could be adversely affected by poor economic conditions generally

The Group's performance will depend to a certain extent on a number of factors outside of the control of the Group which impact on activity levels in its markets, including political and economic conditions. Factors impacting activity levels in the Group's markets include, *inter alia*, exchange rates, interest rates, taxation, regulatory changes, oil prices and terrorist attacks. Each of these factors could have an adverse effect on the financial performance of the Group.

#### (b) Economic, political, judicial, administrative, taxation or other regulatory factors

The Company may be adversely affected by changes in economic, political, judicial, administrative, taxation or other regulatory factors, in the areas in which the Company will operate and holds its major assets. The operations of the Group and the agreements which it has entered into require approvals, licences and permits from various regulatory authorities, governmental and otherwise (including project specific governmental decrees). The Directors believe the Group holds or will obtain all necessary approvals, licences and permits under applicable laws and regulations in respect of its core project and, to the extent they have already been granted, believes it is presently complying in all material respects with the terms of such approvals, licences and permits. However, such approvals, licences and permits are subject to change in various circumstances and further project-specific governmental decrees and/or legislative enactments may be required. There can be no guarantee the Group will be able to obtain or maintain all necessary approvals, licences and permits may be required and/ or all project specific governmental decrees and/or required legislative enactments will be forthcoming.

#### (c) Insurance Risks

The Company plans to insure its operations in accordance with industry practice and plans to insure the risks it considers appropriate for the Company's needs and for its circumstances. Insurance cover will not be available for every risk faced by the Company. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of operations of the Company.

There is a risk that insurance premiums may increase to a level where the Company considers it is unreasonable or not in its interests to maintain insurance cover or not to a level of coverage which is in accordance with industry practice. In addition, the Company may, following a cost-benefit analysis, elect to not insure certain risks on the ground that the amount of premium payable for that risk is excessive when compared to the potential benefit to the Company of the insurance cover.

#### (d) Litigation

The Group may be party to litigation in the course of its business. Any litigation, by the Group or against it, could be costly and lengthy and there can be no assurance that the Group will prevail. Litigation could also involve a significant diversion of resources and management attention and be disruptive to normal business operations. The Group may well have to commence litigation or be subject to litigation as a consequence of its desire to progress the Petišovci project. Claims have recently been made by Nafta Geoterm that the concession in

Slovenia has been invalidated by a water permit that had inadvertently not been acquired. The Company has sought legal advice which supports the Board's belief that any claim would be unsuccessful. Additionally it is our belief that following the dismissal in December 2012 of Jeremy Eng for Gross Misconduct, he may continue to try to extract money from the Company by way of claims for breach of contract amongst others. The Board however is robust in its view that this or any other case he has or may bring against the Company has absolutely no merit given his past actions and it will strongly defend its position.

#### (e) Mergers and Acquisitions

The Group may participate in merger and acquisition activities where it is considered to be in the best interests of the Group. It should be noted that the rules requiring AIM companies to seek shareholder approval for transactions of a substantial size are less onerous relative to those on the Official List and accordingly, the risk associated with such acquisitions is heightened for Shareholders.

#### (f) Attraction and retention of executive management

The Group is highly dependent upon its executive directors and a small number of key employees in its operating subsidiaries. The loss of such executive management could have a materially adverse effect on the Group.

In addition, in assessing any risk associated with an investment in the Ordinary Shares, it should be recognised that any investor would be relying on the ability and continued employment of these individuals.

#### (g) Requirement for further funds

Although the Board believes, the existing resources of the Company and the funds raised pursuant to the Proposals may be sufficient for the future working capital requirements of the Company for much of 2013, they will not allow the Company to exploit new opportunities and there is unlikely to be sufficient funding to see the Company through to positive cash generation. It is therefore highly likely that the Company will have to raise further funds in the future, which may be by way of issue of further Ordinary Shares or some other instrument.

#### (h) Environmental and Other Requirements

The Group's operations are subject to the extensive environmental risks inherent in the oil and gas and mining industries. The current or future operations of the Group, including development activities and blending operations require permits from various governmental authorities and such operations are and will be governed by laws and regulations governing exports, taxes, labour standards, occupational health, waste disposal, toxic substances, land use, environmental protection, safety and other matters. Companies engaged in the construction and operation of dangerous goods storage facilities generally experience increased costs, and delays in production and other schedules as a result of the need to comply with applicable laws, regulations and permits.

Existing and possible future environmental legislation, regulations and actions could cause significant additional expense, capital expenditures, restrictions and delays in the activities of the Group. There can be no assurance all permits which the Group may require for construction of infrastructure and plants will be obtainable on reasonable terms or applicable laws and regulations would not have an adverse effect on any project which the Group might undertake. Although the Group believes it is in substantial compliance in all material respects with applicable material environmental laws and regulations, there are certain risks inherent in its activities such as accidental spills, leakages or other unforeseen circumstances which could subject the Group to extensive liability.

Failure to comply with applicable laws, regulations, and permitting requirements may result in enforcement actions hereunder, including orders issued by regulatory or judicial authorities causing operations to cease or be curtailed, and may include corrective measures requiring capital expenditures, installation of additional equipment, or remedial actions. Amendments to current laws, regulations and permits governing operations, or more stringent implementation thereof, could have a material adverse impact on the Group and cause increases in capital expenditures or production costs or reduction in levels of production or require abandonment or delays in development of new projects.

#### (i) Fluctuations in Oil and Gas Prices

A longer term fall in oil and gas prices can reduce levels of expected cash flow for the Group which could lead to projects becoming sub-economic.

#### (j) Currency Risk

The Group reports its financial results and maintains its accounts in Euros and the world market for oil and gas services is principally denominated in United States Dollars. The Group's operations are largely conducted in Europe and expenditure and revenue estimates are made in Euros, this makes it subject to further foreign currency fluctuations and such fluctuations may materially affect the Group's financial position, results and forecasts.

#### (k) Project Development Risks

There can be no assurance that the Group will be able to manage effectively the development of its operations or that the Group's current personnel, systems, procedures and controls will be adequate to support the Group's operation. Any failure of management to manage effectively the Group's growth and development could have a material adverse effect on the Group's business, financial condition and results of operations. There is no certainty that all or, indeed, any of the elements of the Group's current strategy will develop as anticipated.

#### (I) Operational Risks

The Group's operational targets are subject to the completion of planned operational goals on time and according to budget, and are dependent on the effective support of the Group's personnel, systems, procedures and controls. Any failure of these may result in delays in the achievement of operational targets with a consequent material adverse impact on the business, operations and financial performance of the Group. The locations of the Group's exploration activities dictate that climatic conditions and infrastructure (or lack thereof) have an impact on operations and, in particular, severe weather and other matters affecting infrastructure, road and transport could disrupt the delivery of supplies, equipment and fuel. It is therefore possible that operation levels might fluctuate. Undisclosed interruptions in the Group's operations or issues with the supply of goods or services could have a serious impact on the financial performance of those operations.

#### (m) Reserves and Resource Estimates

Reserve and resource estimates are expressions of judgement based on knowledge, experience and industry practice. Historical calculations or estimates which were valid when originally calculated may alter significantly when new information or techniques become available. In addition, by their very nature, resource and reserve estimates are imprecise and depend to some extent on interpretations, which may prove to be inaccurate. As further information becomes available through additional evaluation, the estimates are likely to change. This may result in alterations to development and production plans which may, in turn, adversely affect the Group's operations. Economically recoverable reserves are dependent on oil and gas prices and ultimate recover may be less than reserves.

#### 3. General risks

#### (a) The Company's objectives may not be fulfilled

The value of an investment in the Company is dependent upon the Company achieving the aims set out in this document. There can be no guarantee that the Company will achieve the level of success that the Board expects.

#### (b) Changes in UK and European fiscal policy

The Company cannot predict the impact of future changes in European fiscal policy on its business. Amendments to existing legislation (particularly if there is an increase in tax rates or a withdrawal of any tax relief) or the introduction of new rules, may impact upon the decisions of either existing or potential customers. Changes in the interpretation of existing tax laws or amendments to existing tax laws or introduction of new tax legislation could materially adversely affect the Group's businesses and operating results.

#### (c) Forward looking statements

This document contains certain forward-looking statements with respect to the financial condition, results of operations and business of the Group and certain plans and objectives of the Directors with respect thereto. By their nature, forward-looking statements involve risk and uncertainty, because they relate to events and depend on circumstances that will occur in the future and the factors described in the context of such forward-looking statements in this document could cause actual results and developments to differ materially from those expressed in or implied by such forward-looking statements. Although the Directors believe that the expectations reflected in such forward-looking statements are reasonable, the Directors can give no assurance that such expectations will prove to have been correct.

#### 4. Risks relating to the Ordinary Shares

#### (a) Market information and nature of Ordinary Shares

The market price of the Ordinary Shares may not reflect the underlying value of the Group's net assets. Potential investors should be aware that the value of shares can rise or fall and that there may not be proper information available for determining the market value of an investment in the Company at all times. An investment in a share which is traded on AIM, such as the Ordinary Shares, may be difficult to realise and carries a high degree of risk. The ability of an investor to sell Ordinary Shares will depend on there being a willing buyer for them at an acceptable price. Consequently, it might be difficult for an investor to realise his/ her investment in the Company and he/she may lose all of his/her investment.

#### (b) Suitability of Ordinary Shares as an investment

The Ordinary Shares may not be a suitable investment for all recipients of this document. Before making a decision, investors are advised to consult an appropriate independent investment adviser authorised through FSMA who specialises in advising on investments of this nature. The value of Ordinary Shares can go down as well as up and investors may get back less than their original investment.

#### (c) Dilution of ownership of existing Ordinary Shares upon allotment of the Offer Shares

If Qualifying Shareholders do not respond to the Open Offer by 11.00 a.m. on 29 April 2013, the latest date for application and payment in full in respect of their entitlements, their proportionate ownership and voting interest in the Ordinary Shares will be reduced and the percentage that their shareholding represents of the issued share capital of the Company will be reduced by a greater amount than arises from the Subscription alone.

#### (d) Share Price Volatility and Liquidity

The market price of the Ordinary Shares could be subject to significant fluctuations due to a change in investor sentiment regarding the Company or the industry in which the Company operates or in response to specific facts and events, including positive or negative variations in the Group's interim or full year operating results and business developments of the Group and/or competitors. The market price of the Ordinary Shares may not reflect the underlying value of the Group and it is possible that the market price of the Ordinary Shares will trade at a discount to net asset value. Potential investors should be aware that the value of shares and the income from them can go down as well as up.

#### (e) Investment in AIM securities

Although the Company is applying for the admission of the Offer Shares to trading on AIM, there can be no assurance that there will be an active trading market the Ordinary Shares will be maintained. Investment in shares traded on AIM is perceived to involve a higher degree of risk and to be less liquid than investment in companies whose shares are listed on the Official List. An investment in Ordinary Shares may be difficult to realise. Investors should be aware that the value of the Ordinary Shares may go down as well as up and that the market price of the Ordinary Shares may not reflect the underlying value of the Company. Investors may therefore realise less than, or lose all of, their investment.

#### 5. Risks relating to Convertible Loan Notes

Unless Henderson determines otherwise, it is not intended that the Convertible Loan Notes shall be listed and no application has been or in intended to be made to any listing authority, stock exchange or other market for the Convertible Loan Notes to be listed or otherwise traded. There will therefore be no trading mechanism or market through which to seek and deal in Convertible Loan Notes and so dealings would be by private treaty.

The Convertible Loan Notes are unsecured. Therefore, the rights and remedies available to the holders of Convertible Loan Notes may be limited by applicable winding-up, insolvency, re-organisation, moratorium or similar provisions relating to or affecting creditors' rights generally.

The Convertible Loan Notes do not carry any voting rights in the Company until conversion (whereupon they will rank *pari passu* with existing Ordinary Shares). Until conversion, holders of Convertible Loan Notes will not be able to exercise any influence over the Company through voting on shareholder resolutions. Should the Company propose to ask Shareholders for approval to take a course of action which a Convertible Loan holder of the Convertible Loan Notes believes is not in his or her interests, that Convertible Loan holder of the Convertible Loan Notes will be unable to influence the outcome of the resolution.

Holders of Convertible Loan Notes are entitled to receive interest of 9 per cent. per annum of the nominal value of their Convertible Loan Notes paid on redemption of the Convertible Loan Notes. If the Company does not have sufficient liquidity in order to pay the interest holders of the Convertible Loan Notes may not receive the full amount owed to them by the Company in a timely manner or at all. If the holders of Convertible Loan Notes wish to redeem their Convertible Loan Notes under the terms of the Loan Note Instrument and the Company does not have sufficient liquidity in order to pay the nominal value of the Convertible Loan Notes, the holders of Convertible Loan Notes may not receive all or any of the nominal value of their Convertible Loan Notes.

Offer will lapse and application monies will be returned to applicants (at the applicants' risk), without interest, by crossed cheque in favour of the applicant(s) within 14 days after that date.

#### (e) Effect of Application

#### 8. Material contracts

Save as disclosed in this paragraph 8, the Company has not entered into any material contracts (being contracts not entered into in the ordinary course of business) within the previous two years.

# 8.1 Subscription Agreement

Pursuant to a letter agreement between the Company and Henderson dated 23 December 2012, Henderson agreed to subscribe for 3,000,000 Convertible Loan Notes for £3 million and, subject to certain conditions which include the Company making the Open Offer to Shareholders, to subscribe for up to a further 2,500,000 Convertible Loan Notes for up to £2 million subject to clawback by Shareholders under the Open Offer.

The obligation for Henderson to subscribe for Convertible Loan Notes in the second tranche is conditional upon there being no material adverse change to the Ascent Group or the Petišovci project. Subject to the terms of the Subscription Agreement, Henderson has agreed to underwrite the Open Offer by undertaking that in the event that the proceeds of the Open Offer fall short of £2.5 million, Henderson will subscribe for such number of Convertible Loan Notes as the principal amount of which is equal to such shortfall. The Company has agreed to pay Henderson an underwriting fee of two (2) per cent. of the aggregate amount of the Convertible Loan Notes payable in two tranches, on the first and second tranche subscriptions for the Convertible Loan Notes.

Pursuant to the terms of the Subscription Agreement, for as long as any Convertible Loan Notes are outstanding, Henderson shall be entitled to nominate for appointment two non-executive directors to the Board, one of whom may be appointed as the non-executive Chairman.

The Subscription Agreement also requires that Leonard Reece and Scott Richardson Brown subscribe for Employee Loan Notes on the same terms as Convertible Loan Notes issued under the Subscription and Open Offer for the equivalent of 50% and 25% respectively of one year's annual post tax salary over a 24 month period, to be invested on a monthly basis commencing on 31 January 2013.

Since then Scott Richardson Brown decided to leave the Company to pursue other interests and step down from the Board at the conclusion of the General Meeting. Accordingly, all parties to the Subscription Agreement have agreed to waive this requirement. Details of the arrangements covering Leonard Reece are set out in paragraph 8.3 of this Part VII.

The Convertible Loan Note Instrument contains certain warranties given by the Company to Henderson, including warranties relating to the conduct of the Company's business and compliance with laws and negative pledges by the Company not to carry out certain actions without the consent of Henderson, including the variation of rights attached to equity securities or amending the Articles.

#### 8.2 **Convertible Loan Note Instrument**

On 23 December 2012, the Company entered into a loan note instrument, pursuant to which the Convertible Loan Notes are constituted in accordance with the terms of the Subscription and Open Offer.

Interest is payable on any outstanding Convertible Loan Note at nine (9) per cent. per annum which shall accrue on each quarter day, calculated on a 365 day year.

Subject to the terms of the Convertible Loan Note Instrument, the Convertible Loan Notes and any accrued and unpaid interest thereon shall be convertible into fully paid Ordinary Shares at a conversion price of £0.005 per Ordinary Share. The number of Ordinary Shares to be issued on conversion may be adjusted in certain circumstances which includes a capital reorganisation but excluding the issue by the Company of Ordinary Shares pursuant to any option scheme operated by the Company. On an adjustment event or a capital reorganisation the Company will ask the professional adviser or the auditors of the Company to certify the adjustments to the number of the Ordinary Shares to be converted which they consider to be necessary so that after such adjustment and on conversion the holder of the Convertible Loan Notes will be entitled to receive the same percentage of the issued share capital of the Company carrying the same proportion of votes exercised at a general meeting of Shareholders and the same entitlement to participate in distributions of the Company, in each case as nearly as practical, as would have been the case had no adjustment event or capital reorganisation occurred.

In the event that the Fundraising Resolutions are not passed by 31 May 2013 (the "**Longstop Date**") and the Longstop Date is not extended by Henderson, the Convertible Loan Notes that are not capable of conversion into Ordinary Shares pursuant to the Company's current authorities shall be treated as Phantom Shares and a finance fee equal to any value attributable to those shares (after deducting the face value of any Convertible Loan Notes redeemed for cash) shall be paid to Henderson by the Company on the 31 January 2015 or such earlier redemption date in accordance with the terms of the Convertible Loan Note Instrument.

Henderson shall be entitled to demand redemption of the Convertible Loan Notes then in issue in the event that the Company is in material breach of the Convertible Loan Note Instrument or the Subscription Agreement or in the event of a Change of Control. In addition, Convertible Loan Notes shall be immediately redeemed when an event of default by the Company occurs, such events of default including an administration order being made in relation to the Company or the passing of a resolution for the winding up, liquidation or administration of the Company.

Unless previously redeemed or converted the principal amount and any interest accrued thereon of the Convertible Loan Notes will be redeemed by the Company on 31 January 2015.

A holder of the Convertible Loan Notes may transfer any Convertible Loan Note (in full) to any party to whom the holder of the Convertible Loan Notes may transfer Ordinary Shares in accordance with the Articles. The Convertible Loan Note Instrument contains certain restrictions and obligations on the Company which include a prohibition on amending the Articles and the obligation to maintain sufficient authorised but unissued share capital equity share capital in the Company to satisfy in full the outstanding rights of conversion attaching to the Convertible Loan Notes.

#### 8.3 Salary Sacrifice

Following the conclusion of the General Meeting, the Company will enter into an arrangement with Leonard Reece whereby, in return for a retention payment of £63,644, to be invested in Incentive Loan Notes, Leonard Reece agreed to reduce his annual post tax salary by £31,822 for a period of 2 years.

### 8.4 Yorkville Loan Facility Agreement

On 26 July 2012, the Company entered into a standby equity distribution backed loan agreement with Yorkville pursuant to which the Yorkville Loan Facility was made available to the Company.

Interest is payable on any outstanding amount drawn down under the Yorkville Loan Facility at nine (9) per cent. per annum. As at 31 December 2012 circa £1.9 million of the Yorkville Loan Facility was outstanding.

The Yorkville Loan Facility Agreement contains certain restrictions and obligations on the Company which include the entry by the Company into the Yorkville SEDA, the maintenance a minimum cash balance and an obligation to inform Yorkville in the event that there is a material adverse change to the assets, financial or trading position of the Company.

### 8.5 Yorkville SEDA

On 26 July 2012, the Company entered into a revised Yorkville SEDA with Yorkville pursuant to which a standby equity distribution agreement facility was made available to the Company which superceded the agreement entered into in November 2010.

The Yorkville SEDA secures the amounts drawn down under the Yorkville Loan Facility and provides the Company with a £10 million facility which (subject to certain limited restrictions) can be drawn down at any time during the period to 31 December 2015 commencing on 26 July 2012. The timing and value of any draw down under the Yorkville Loan Facility is at the sole discretion of the Company.

The shares issued by the Company will be at a 5% discount to the prevailing market price during the ten day pricing period of a drawdown. The Company may also set a minimum price for each drawdown. The maximum advance that may be requested is 400% of the average daily trading volume ("ADTV") of Ascent's shares multiplied by the volume weighted average price of such shares for each of the twenty trading days prior to the drawdown request. For advances of 200% to 300% of the ADTV the relevant period is reduced to fifteen days, and for up to 200% of the ADTV it is priced over ten days following delivery of a subscription notice (the "**Pricing Period**"). The Company may also specify in each subscription notice a minimum price (the "**Floor Price**") below which Ordinary Shares would not be issued to Yorkville. The Company will have the right to modify that Floor Price at any time with the consent of Yorkville during the relevant Pricing Period. The number of Ordinary Shares issued on each draw down may not exceed 3 per cent. of the issued Ordinary Shares as enlarged by the issue.

The maximum number of Ordinary Shares which may be issued under any individual subscription notice will be 400 per cent. of the average daily trading volume of the Company's Ordinary Shares over the 20 trading days preceding the issue of the relevant subscription notice. There is an over-allotment facility available to the Company under which the Company may authorise Yorkville at Yorkville's discretion to increase the amount of draw down by up to the aggregate undrawn amount under the Yorkville Loan Facility.

The issuance of a subscription notice is conditional upon the satisfaction of certain subscription notice conditions (the "**Subscription Notice Conditions**") which have been agreed between Yorkville and the Company. Any subscription notice which the Company may issue will only be valid to the extent that it has the requisite shareholder authority to issue the maximum number of Ordinary Shares that Yorkville may be required to subscribe under the relevant subscription notice.

#### 8.6 Darwin SEDA

On 11 February 2013, the Company entered into an equity finance facility agreement with Darwin pursuant to which the Darwin SEDA was made available to the Company.

The Company is also obliged to specify in each subscription notice a minimum price (the "**Floor Price**") below which Ordinary Shares would not be issued to Darwin. The Company will have the right to modify that Floor Price at any time with the consent of Darwin during the relevant Pricing Period. The number of Ordinary Shares issued on each draw down may not exceed 25 per cent. of the issued Ordinary Shares as enlarged by the issue.

The number of shares to be issued may be reduced in certain circumstances, including where the Floor Price is not maintained, the Company's shares not being traded or the Company having suffered a material adverse effect during the Pricing Period. There is an over-allotment facility available to the Company under which the Company may authorise Darwin at Darwin's discretion to increase the amount of draw down by up to the aggregate undrawn amount under the Darwin Loan Facility.

The issuance of a subscription notice is conditional upon the satisfaction of certain subscription notice conditions (the "**Subscription Notice Conditions**") which have been agreed between Darwin and the Company. Any subscription notice which the Company may issue will only be valid to the extent that it has the requisite shareholder authority to issue the maximum number of Ordinary Shares that Darwin may be required to subscribe under the relevant subscription notice.

# 8.8 BNP Paribas Credit Agreement

On 29 May 2012 the Company entered into a EUR15 million term loan facility with BNPP. The terms of the term loan facility shall, subject to the Company having obtained JV Consent and there being no event of default, enable the Company to draw down up to  $\in$ 15 million to fund the Petišovci field to production and to fund further developments on the Petišovci field by the Company. As to Resolution 2 of the General Meeting, which Henderson has agreed not to vote, Ascent and finnCap have obtained irrevocable undertakings to vote in favour of this Resolution over 1,169,500 Ordinary Shares (representing approximately 0.11 per cent. of the existing issued share capital of Ascent).

#### 8.11 Incentive Loan Notes

Leonard Reece and Clive Carver intend to invest £63,644 and £17,500 respectively in the subscription for Incentive Loan Notes.

The terms of the Incentive Loan Notes will be the same as that of the Convertible Loan Notes as described in paragraph 8.2 in this Part VII.

### 8.12 Incentive Scheme

8.12.1 Purpose

The purpose of the Incentive Scheme is to reward key senior management for the progress of the business of the Group and for the creation of value for Shareholders.

### 8.12.2 Material terms of the Incentive Scheme

Awards of Options will be made by the remuneration committee of the Board to Participants.

The maximum number of Scheme Shares will be calculated as 10 per cent. of the aggregate value of the Fully Diluted Ordinary Shares above. The exercise price of the Options will be one penny per Scheme Share. For the purposes of this paragraph and paragraph 8.11.4, "Fully Diluted Ordinary Shares" shall mean the total number of Ordinary Shares in issue at the date of this document and the number of Ordinary Shares which would be issuable in order to satisfy the conversion rights under the Convertible Loan Notes in issue at the date of this document.

The total number of Ordinary Shares to be issued under the Incentive Scheme and any other share plan that the Company has in place shall not exceed 10% of the issued share capital of the Company in any ten year rolling period.

### 8.12.3 *Eligible persons*

Clive Carver, Leonard Reece and such other key senior management as the remuneration committee of the Board may determine.

8.12.4 Pool allocation<sup>1</sup>

The number of the Scheme Shares granted to the Participants shall initially be as follows:

Clive Carver 26,568,871, representing 1.25% of the Fully Diluted Ordinary Shares

Leonard Reece 69,079,066, representing 3.25% of the Fully Diluted Ordinary Shares

Others 10,627,549, representing 0.5% of the Fully Diluted Ordinary Shares

The number of Scheme Shares will be automatically adjusted to reflect increases in the number of Ordinary Shares that are in issue.

#### 8.12.5 Vesting events

Ordinary Shares equal to the value of each Participant's share of the Pool will be issued to Participants on the earliest of the following vesting events:

- (i) The third anniversary of an Award;
- (ii) A change of control of the Company; or
- (iii) A sale of the Slovenian project for consideration in excess of £40 million.

#### 8.12.6 Good leaver/bad leaver provisions

The treatment of leavers will vary depending on whether they are good or bad leavers. All shares for a Bad Leaver will lapse on cessation of employment. An Intermediate Leaver will have the value of their reward capped by a calculation of the shares due (pro rated by time elapsed since grant) x the share price at the date of leaving. This will crystallise an amount which would then become payable either at the end of three years or on an event of exit if sooner.

For a Good Leaver, all the Scheme Shares would fully vest and the value of the shares would be that on the date of an exit or after three years whichever was the sooner (in other words it will not be capped by reference to the share price on the date of leaving).

For the avoidance of doubt, the entitlements of a director under the Management Incentive Scheme will not be affected if a director retires by rotation or fails to be re-elected as a director.

The terms "Good Leaver", "Bad Leaver" and "Intermediate Leaver" are defined on pages 4, 5 and 6.

<sup>1 50</sup> per cent. of the Pool is to be held back for potential senior new hires.

# Notes to the Notice of General Meeting

# 1. Entitlement to attend and vote

Pursuant to Regulation 41 of the Uncertificated Securities Regulations 2001, the Company specifies that only those members registered on the Company's register of members 48 hours before the proposed time of the Meeting shall be entitled to attend and vote at the Meeting.

# 2. Appointment of proxies

If you are a member of the Company at the time set out in note 1 above, you are entitled to appoint a proxy to exercise all or any of your rights to attend, speak and vote at the Meeting and you should have received a proxy form with this notice of Meeting. You can only appoint a proxy using the procedures set out in these notes and the notes to the proxy form.

A proxy does not need to be a member of the Company but must attend the Meeting in order to represent you. Details of how to appoint the Chairman of the Meeting or another person as your proxy using the proxy form are set out in the notes to the proxy form. If you wish your proxy to speak on your behalf at the Meeting you will need to appoint your own choice of proxy (not the Chairman) and give your instructions directly to them.

You may appoint more than one proxy provided each proxy is appointed to exercise rights attached to different shares. You may not appoint more than one proxy to exercise rights attached to any one share. To appoint more than one proxy, please contact the registrars of the Company, Computershare Investor Services PLC, on 0870 889 3201.

A vote withheld is not a vote in law, which means that the vote will not be counted in the calculation of votes for or against the resolution. If no voting indication is given, your proxy will vote or abstain from voting at his or her discretion. Your proxy will vote (or abstain from voting) as he or she thinks fit in relation to any other matter which is put before the Meeting.

# 3. Appointment of proxy using hard copy proxy form

The notes to the proxy form explain how to direct your proxy how to vote on each resolution or withhold their vote.

To appoint a proxy using the proxy form, the form must be:

- completed and signed;
- sent by post to Computershare, Corporate Actions Projects, Bristol BS99 6AH or delivered by hand during normal business hours only to Computershare Investor Services PLC, The Pavilions, Bridgwater Road, Bristol, BS99 6ZY; and
- received by Computershare Investor Services PLC no later than 48 hours (excluding nonbusiness days) prior to the Meeting.

In the case of a member which is a company, the proxy form must be executed under its common seal or signed on its behalf by an officer of the company or an attorney for the company.

Any power of attorney or any other authority under which the proxy form is signed (or a duly certified copy of such power or authority) must be included with the proxy form.

# 4. Appointment of proxy by joint members

In the case of joint holders, where more than one of the joint holders purports to appoint a proxy, only the appointment submitted by the most senior holder will be accepted. Seniority is determined by the order in which the names of the joint holders appear in the Company's register of members in respect of the joint holding (the first-named being the most senior).

# 5. Changing proxy instructions

To change your proxy instructions simply submit a new proxy appointment using the methods set out above. Note that the cut-off time for receipt of proxy appointments (see above) also applies in relation to amended instructions; any amended proxy appointment received after the relevant cutoff time will be disregarded.

Where you have appointed a proxy using the hard-copy proxy form and would like to change the instructions using another hard-copy proxy form, please contact Computershare Investor Services PLC on 0870 889 3201.

If you submit more than one valid proxy appointment, the appointment received last before the latest time for the receipt of proxies will take precedence.

# 6. Termination of proxy appointments

In order to revoke a proxy instruction you will need to inform the Company by sending a signed hard copy notice clearly stating your intention to revoke your proxy appointment to Computershare , Corporate Actions Projects, Bristol BS99 6AH or by facsimile transmission to 0870 703 6076. In the case of a member which is a company, the revocation notice must be executed under its common seal or signed on its behalf by an officer of the company or an attorney for the company. Any power of attorney or any other authority under which the revocation notice is signed (or a duly certified copy of such power or authority) must be included with the revocation notice.

In either case, the revocation notice must be received by Computershare Investor Services PLC no later than 48 hours (excluding non-business days) prior to the Meeting.

If you attempt to revoke your proxy appointment but the revocation is received after the time specified then, subject to the paragraph directly below, your proxy appointment will remain valid.

Appointment of a proxy does not preclude you from attending the Meeting and voting in person. If you have appointed a proxy and attend the Meeting in person, your proxy appointment will automatically be terminated.

# 7. Corporate representatives

A member that is a company or other organisation not having a physical presence cannot attend the Meeting in person but can appoint someone to represent it. This can be done in one of two ways: either by the appointment of a proxy (described above) or of a corporate representative. Members considering the appointment of a corporate representative should check their own legal position, the Company's articles of association and the relevant provision of the Companies Act 2006.

# 8. Issued shares and total voting rights

# 9. Communications with the Company

Except as provided above, members who have general queries about the Meeting should telephone the Company on 020 7251 4905 (no other methods of communication will be accepted).
